FILTER PRESSURE REDUCER

AQWELL

**BUILT-IN
PRESSURE
REDUCER**

**PRESSURE
MANOMETR**
Built-in pressure
reducer

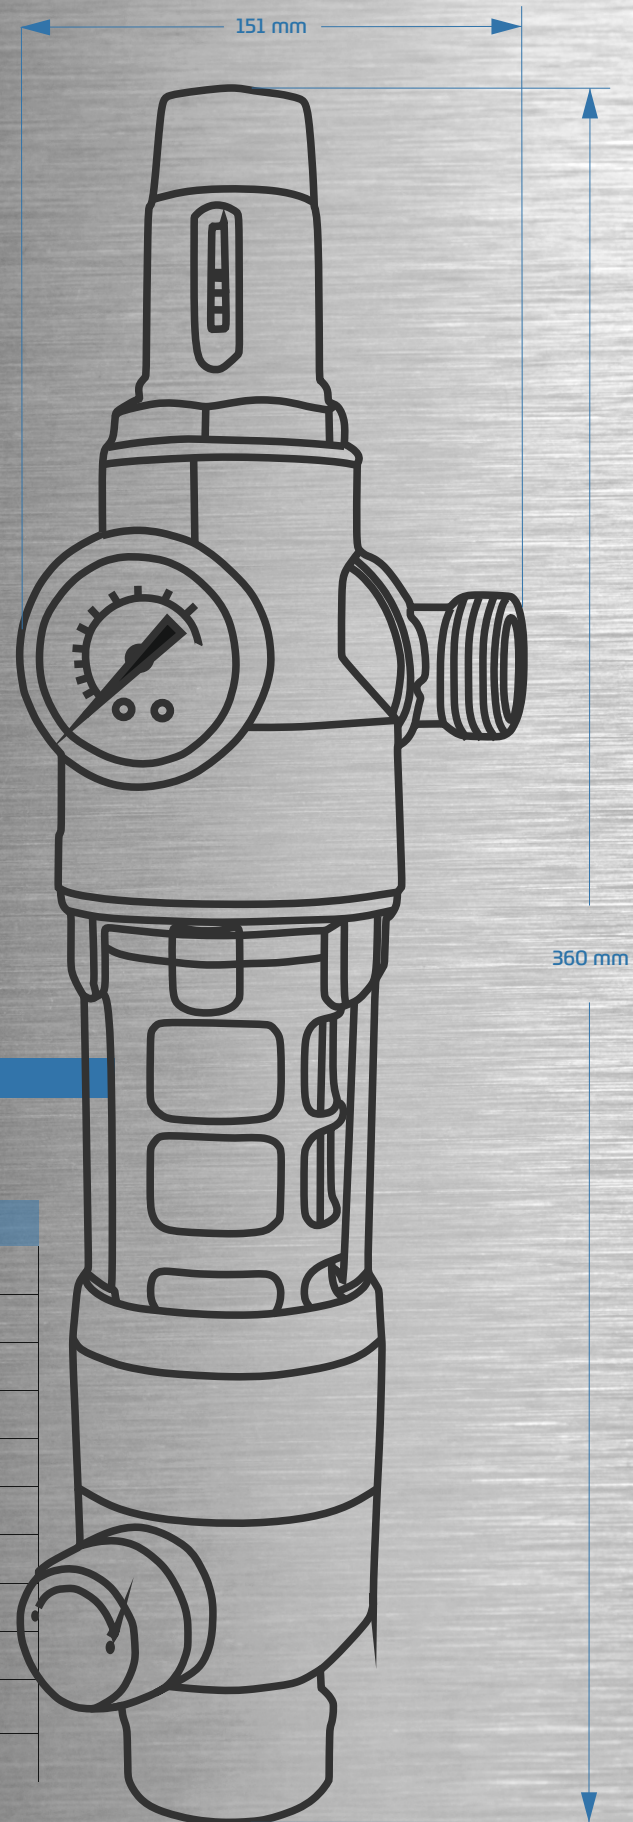

**BACKWASH system
with water drain**
**TWIST & CLEAN
system**

DESCRIPTION

- filtration of solid contaminants: sand, silt, rust, scale
- optional vertical/horizontal/angle installation
- adjustable connection 1" and 3/4" (both sizes MIP and FIP)
- backwash system ensuring easy maintenance
- possibility of water drain directly into the sewer
- - Twist & Clean system - filter housing cleaning without water access interruption

TECHNICAL DATA

CODE	AQWELL 34
inlet pressure	max. 8 bar
rear pressure	adjustment 2-6
working pressure	min. 1,5 bar
working temperature	5 - 30°C
connection size	¾" 1"
filtration size	40 µm
output water flow	4 m³/h
weight	2,3 kg
size	160 x 95 x 360 mm
connection spacing	95 mm (without semi-connectors)

Set includes 1/4" hose, fitting, bracket, wrench, user manual
