SPA SHOWER FILTER

Thanks to activated carbon from coconut shells, it removes chlorine, which positively affects our skin and hair. The purified water does not dry out the skin or cause irritation. The filter can be installed on the faucet as well as on the showerhead.

Eliminates up to 99% of chlorine

Supports maintaining good hair condition.

Prevents excessive skin dryness.

Recommended for sensitive and atopic skin.

Recommended for baby washing.

Universal connection allowing easy and convenient installation.
