

CENTRAL VACUUM SYSTEM INTELLIGENCE 300 AND 700 SERIES

The unique central vacuum system in Poland offering
a patented **WIRELESS SYSTEM** technology.

Intuitive, user-friendly LCD control panel in Polish language, equipped with a powerful microprocessor.

Innovative silencer integrated with the central unit.

Efficient and reliable engine providing high suction power. Comfort for many years.

Reversible connection to the installation both left and right side.

Washable, modern polyester filter. Filter replacement every 4 years! **Spare filter included.**

Large, removable dust container.

LCD control panel

Reports on failures and troubleshooting procedures.

Maintenance alerts:

- Please empty the dust container
- Please clean the filter
- Please replace the filter

Alarm signals:

- Dirty filter or clogged installation – a thermal switch-off automatically stops the device, preventing it from overheating and engine damage
- If the central unit has been accidentally switched on more than 7 times within one minute, it will be automatically switched off
- If a preset working time has been exceeded, the device will be automatically switched off (default setting is 45 minutes, it can be modified and customized)

wireless system

The unique central vacuum system in Poland offering a patented **WIRELESS SYSTEM** technology.

Wireless control

a remote on/off switch located on the hose handle

Extremely lightweight vacuum hose

no wires embedded in the hose, **40% lighter** than standard hoses

VACUUMING HAS NEVER BEEN SO EASY!

INTELLIGENCE VACUUM CLEANING SYSTEM MAIN ADVANTAGES

Fast and easy assembly. Does not require electrical connections and low voltage wire (neither in tubing nor in suction sockets).

Soft Start system – enhances efficiency and increases engine service life.

Central unit and hose compatible with a standard, already existing installation.

The highest quality and Italian design of the power unit, hose and Brava handle.

Comfortable solutions - easy appliance assembly and disassembly.

Environmentally friendly and economical – low energy consumption, in a stand-by mode consumes only 1 Watt.

High degree of protection (IP55) enables to install the central unit outdoors provided some requirements have been met.

Dual System Filtration

- The latest generation Dual System Filtration
- Cyclone combined with HEPA filter with double increased filtration surface improve working parameters and engine protection.

Customized parameters and user-friendly menu, which includes maintenance reports and alerts:

- filter cleaning
- emptying the dust container
- continuous working time with alarm

Reports on failures and troubleshooting procedures

- Maintenance alerts
- Alarm signals

Equipped with an integrated silencer, which provides an extremely silent operation of the appliance (only 61 dB).

Additionally, you can get FOR FREE:

- Replacement filter – using one filter, you can clean easily the other one with a central vacuum system
- dust collection bag

Clean and fresh air. Dust is sucked in and then expelled outside the building.

The system eliminates allergens, bacteria and mites. Perfect solution for allergy sufferers.

For your home

INTELLIGENCE CLEANING ACCESSORIES

Extremely wide (36 cm) brush for hard floor surfaces. Perfect for laminate flooring, parquet, wood and tile floors. Soft and durable bristles protect surfaces against scratches. Its width provides comfortable and fast vacuuming.

Flexible nozzle (length: 60 cm). Two suction ports make cleaning effective. Recommended for corners, angles, edges or inaccessible places. A must-have for every central vacuum system.

Upholstery nozzle with felt strips (width: 13 cm). Suitable for upholstery cleaning and pet hair removal from carpets and fitted carpets.

Telescopic wand. Equipped with a "SlideMOVE" ergonomic clamp. Antistatic coating. Adjustment range: 60 – 96 cm.

Functional accessories holder to be fixed on the wall or inside the wardrobe.

For your comfort

Advantages:

- >> fast and easy assembly
- >> installation without control wires
- >> saving time and money
- >> fit for purpose
- >> suction power and silent operation
- >> easy to handle
- >> quality and safety
- >> fully manufactured in the EU

Guaranteed quality – GDA, a worldwide recognized Italian manufacturer with outstanding 45-year experience and a number of patents and certificates.

Manufacturer 5-year warranty for the vacuum central unit. Excellent quality and user satisfaction.

UST-M 20-year warranty for PVC pipes and fittings.

The system is compatible with other cleaning sets available on the market and a traditional (wired) central vacuum installation.
